

## Quality Assurance Policy:

Trimproof is committed to operating a system of quality management which ensures the following:

- Safe, economic and efficient methods of working.
- Compliance with Statutory Regulation and Codes of Practice.
- Compliance with contractual obligations and professional industry standards and practices.
- Adherence to program, budget and Client specifications.
- Maintenance of the company environmental policy.
- Maintenance of a high level of performance and professionalism by a regular review of staffing resources and training requirements.
- Active pursuance of staff development as provision for future Company manpower requirements.
- Constant improvement in methods of working.
- 

The implementation of the Trimproof's system of quality management is the responsibility of all employees.
